

This Will Interest You!

A great many people lost out on our China Sale, but we have another proposition that should interest everyone. It is now about TWENTY-THREE WEEKS UNTIL CHRISTMAS. Everybody will want to make gifts at that time, but often the lack of "cold cash" is a hindrance to the desire. We are going to make it easy for you, so easy, that by that time you will have \$10.50 to your credit and hardly realize that you have spent a cent. We have introduced the "JITNEY PLAN" where you pay down five cents the first week and then add five cents more each succeeding week to the amount of the previous week. To make a long story short drop in at the

and let us explain our proposition to you.

—J. H. Manson is back from a visit to his family at Provo, coming through in his car. The roads are good except in a few spots over Boulder Summit.

—Martin Millarich of Black Hawk was doing business in Price this first of the week. The roads between here and there are in fairly good shape, but could be better, says he.

—President C. N. Lund is up and around again. He says he could not afford to die at this time on account of the high cost of funeral expenses.—Mt. Pleasant Pyramid, 1th.

—Julius Mueller came in on the fourth from Price to visit his wife and little daughter, who are here on a visit to their parents and other relatives.—Intelligencer (Helio.) New Era, 8th.

—W. J. Tidwell was up from Wellington last Monday measuring the water in the Price Water company canal in the interest of users of his section. "Crops are good with us this year, but we are badly in need of rain as is almost every other section of Eastern Utah. We will have an average crop of small fruits."

—John E. Brown and daughter of Moab were here several days the latter part of last week visiting friends, coming over with Dennis Baldwin, who remained also and visited here. The Browns were accompanied on their return by Mrs. Law McCarty, who went to spend the Fourth at Moab.—Green River Dispatch, 7th.

—Dr. and Mrs. E. M. Neher and Mr. and Mrs. J. F. Cory of Castle Gate with their babies motored down to Price last Sunday afternoon and visited a short time at the home of Mr. and Mrs. H. W. Crockett. The roads between Price and the coal camp are in fairly good condition, but not what they ought to be by a long ways, say the two gentlemen.

—G. B. Christensen, district manager for Mores Mercantile company of Denver, Colo., was here this week, accompanied by E. E. Neill, the latter assuming charge of the firm's branch house at Price and is to remain permanently. The former's headquarters are at Grand Junction, while the latter has made that city his home for a considerable time.

—H. B. Kirkpatrick, republican county chairman, was down from Castle Gate last Saturday evening to attend the young men's republican club banquet. —Mr. and Mrs. B. Newrein of Scofield were visitors this week in Price with old acquaintances from the upper camp. Mrs. Brubaker going on to Salt Lake City, where she will visit with relatives and friends for several weeks, and the latter returning yesterday to camp. "The mines at Hiawatha and Black Hawk are working well, everything considered, and there would be a greater output of the black diamonds," says he, "but for the temporary shortage of railroad cars."

—C. Frank Emery, inspector of the state board of health, was in the city yesterday, and in company with Dr. Shipansky and Mayor Moss, gave the city a thorough inspection. As a consequence, a few Helper property owners may hear something drop very shortly. "The mines are working full six days a week now with an output of an average train load or more daily," said he to a Sun representative. REV. MILLS COMING

Faculty of Price Academy to be Completed Next Week.

Rev. E. L. Mills, in charge of the educational work of the Methodist missions in Utah, is expected in Price next week on one of his periodical trips. He will be accompanied by Prof. A. C. Hoover, the principal of Price academy to succeed Rev. L. A. Jones. While here it is expected that Rev. Mills will fill the vacancies on the academy teaching staff—first assistant principal and commercial department—for the academic year 1916-17.

The faculty so far selected is Prof. Albert C. Hoover, principal; Lucille Morningstar, second assistant; Lois Cassell, third assistant; Mrs. M. G. Cleveland is retained as matron; Rev. L. A. Jones, the retiring principal, will not know until Rev. Mills comes where he is to go. However, he is assured of a much better position than the one which he is leaving, and which he must certainly deserve.

Rev. and Mrs. Jones will be very sorely missed in Price and throughout Carbon county, where many good friends have been made by this ex-

cellent educational worker in later, and his good wife, the one who regret their going is by e-mail.
